DIP MIXES, SPREADS, & SEASONING BLENDS

About our Blends

We use the highest quality spices and herbs from around the world to make our gourmet party dips, spreads and seasoning blends. We add no chemicals, preservatives or anything unnatural. If salt is required, we add only a small amount of sea salt making the mix tasty yet low in sodium.

As a party dip, they are perfect with fresh veggies, pretzels, chips, and crackers. As a spread they are perfect on bagels and cocktail rye bread.

Our party dip recipes suggest sour cream and mayo (please, no miracle whip!) to mix them with. Substituting softened cream cheese and a bit of milk will make a delicious bagel or cracker spread.

Several of our blends make a delicious dry rub, "sprinkle-on" seasoning, or sauté companion with a bit of olive oil and chicken or fish.

The possibilities are
unlimited!
